Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 52 and 56 are rejected under 35 U.S.C. 103(a) as being unpatentable over AAPA in combination with Yamada '179, Inoue et al '206, So et al '905, Garcia et al, Farber et al '684 and further in view of Satoh et and Sakaa et al '584.

The rejection is maintained as stated in the office action mailed 3/22/06.

Applicant argues that Satoh does not teach a film corresponding to the resin film of the invention because film 5 of Satoh is patterned before forming the protective film 10. However, the claims are open to patterning the resin film prior to forming the protective film.

Applicant argues that there is no motivation for combining Satoh and Sakata because Sakata does not recognize the problem of electrostatic discharge damage and does not form a film to prevent contamination and electrostatic discharge damage. However, it is not necessary for the reference to disclose that the process of the reference is performed to achieve the same goals as applicant or to obtain the same advantages recognized by applicant. It is sufficient that the process suggested by the reference alone or in combination with the remaining references is encompassed by the instant claims.

Claims 54 and 55 are rejected under 35 U.S.C. 103(a) as being unpatentable over AAPA in combination with Yamada '179, Inoue et al '206, So et al '905, Garcia et al, Farber et al '684 and further in

view of Satoh et al and Sakata et al '584 as applied to claims 50-53,56,57,62,64,65,67,76-80 and 82 above, and further in view of Montgomery et al.

The rejection is maintained as stated in the office action mailed 3/22/06.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Fourson whose telephone number is (571)272-1860. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Smith, can be reached on (571) 272-1907. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
